12G BSC Extended Range - Tracer

Description

Primetake Birdscaring Cartridges are designed to be used in and around airports and airfields to help with control and bird movement, and assist towards their dispersal.

The 12G Extended Range Tracer Cartridge is designed to produce a slight green tracer and smoke trail during flight, ending with a loud report at its effective range.

Range Safety Template available on request.

Environmental conditions at the time of firing, such as wind speed and direction, should always be considered - firing advice available on request.

*Sound levels are variable and influenced by environmental conditions.
