

## PRODUCT DATA SHEET

PT9100AE

VERSION 2

### OVERVIEW

## Pyro Trg-Sims

Code: PT9100AE

Weight: 50.20g Approx

**Friction Thunderflash Mk9**

### Methods of Use

The MK9 Friction Thunderflash is designed to simulate the functioning of a grenade or other similar event and should not be buried or fired on loose ground or gravel.

### Description

The Pyrotechnic is held within a long thin tube with a removable head which has a small delay between initiation and event.

### Performance/Safety

It is initiated by removing the top cap and using the element to strike the top of the main body, like striking a match. Range Safety Template available on request.
