OVERVIEW

Specialist Small Arms

Code: PT4520E

Projectile Weight: 110 grains

Cartridge, 300 AAC BLK - Operational

Description

The Primetake specialist 300 BLK range has been designed for assault rifles and high accuracy boltaction rifles.

The Operational cartridge is designed for tactical use where barrier penetration and terminal effect in soft tissue are required.

The round features a 110 grain monolithic projectile – selected for its capabilities in barrier penetration and expansion in soft tissue. The polymer tip prevents blocking of the cavity and aids controlled expansion.

The round will consistently cycle quality weapon systems at extremes of temperature.

Primetake are able to work with customers to produce ballistic tables for specific weapon combinations.

Range Safety Template available on request.
