

BIRDSCARING CARTRIDGES - PISTOL

VERSION 2

Description

Primetake Birdscaring Cartridges are designed for use in and around airports and airfields for the control and dispersal of birds; by delivering a variety of different effects (stimuli) in the form of loud noise and light outputs.

Primetake Birdscaring Cartridges consist of a fully **bio-degradable** and frangible projectile, which reduces the overall environmental impact and FOD risk within critical areas of the airport / airfield.

Environmental conditions at the time of firing, such as wind speed, wind direction and heavy rain, should always be considered – training and firing advice available on request.

Transport & Packaging Details

Packaging: Fibreboard Box (available in M2A1 on request)

Dimensions (mm): 340x240x140

Quantity Per Pack: 200

Gross Weight Nominal: 5.00kg

Maximum NEQ: S: 1.22kg, M: 1.58kg, L: 1.39kg

XL: 1.51kg, B: 1.16kg

Proper Shipping Name: Articles, Pyrotechnic

UN Serial Number: 0431

Hazard Class: 1.4G

Shelf Life: 5 years under controlled conditions

Storage Requirements: To remain within original packaging, stored between +5°C and +30°C with a relative humidity not exceeding 70%

Specification

Part No	Designation	Calibre	Cap Colour	Effective Range	Firing Angle	Effect	Propellant Type	Weapon Compatibility
PT4580S	Short	12 Gauge (12 x 76mm)	White	30 to 50 metres	30°	Loud Report	Black Powder	Signal Pistol with a 12G Adaptor
PT4580M	Medium		Yellow	50 to 70 metres				
PT4580L	Long		Green	70 to 90 metres	45°	Green Trace + Loud Report		
PT4580XL	Xtra-Long		Black	90 + metres				
PT4580B	ScreechBang		Red	40 to 60 metres	30°	High Pitch Screech and Loud Report		

Range Safety Templates available on request
