

TESTED TO MILITARY STANDARDS

WATERPROOF
 TESTED IN -56°C to +71°C
 PROVEN AGAINST SAND, DUST, AND FREEZING RAIN

Tested To Military Standards (MIL-STD-810G)

- ✓ Rigorously tested to a range of climatic conditions from -56°C to +71°C and up to 100%RHA; proven against sand and dust, freezing rain.

Safety In Use

- ✓ Extremely safe for the user due to a 2-Stage Safety Mechanism, Top and Bottom vents, and consistent weight.

Minimal Smoke, Maximum visibility

- ✓ Our efficient device design uses fewer toxic materials, these minimise smoke and ensure enhanced visibility especially in confined areas.

Tough, Durable & Waterproof

- ✓ The Phaeton offers class-leading performance and has been tested for effective function after being submerged in water at a depth of 15 metres for 3 hours!

Primetake flashbangs provide you with enhanced visibility & complete distraction.

Training and Operational flashbangs available

2 Stage Safety Mechanism

COMPANY INFORMATION

Established in 1991, Primetake design, develop, manufacture and supply specialist ammunition for professional users within military and law enforcement. Our product portfolio spans from Tactical 12 Gauge and Omega Sniper/ Match Grade Ammunition to Pyrotechnics, Distraction Devices, Saluting Ammunition and other technical products, whilst continuing to offer a world leading range of Bird Scaring Cartridges for the military and civil aviation markets.

The company operates from a modern facility near Lincoln in the East of England offering an unrivalled worldwide distribution network, exporting high quality cost effective ammunition solutions across the world. Our products have a reputation for high performance, quality, reliability, safety and innovation and enjoy an international following among many elite military and law enforcement units.

We pride ourselves on technical excellence employing an expert Research and Development team. Products are continuously reviewed for performance and consistency throughout their lifetime, enabling us to stay ahead of the market; while a rigorous development process and a highly skilled workforce mean that every Primetake product is thoroughly tested and completed to an exceptional standard before leaving the premises.

Primetake is part of Key Technologies Ltd, a leading defence and security technology group in the UK. Primetake is an ISO 9001, ISO 14001 and OHSAS 18001 accredited company and along with our partners, endorse and subscribe to the TRAC and TRACE due diligence and anti-bribery platform. As part of a continuous improvement programme, Primetake has committed to attain SC21. This standard aims to boost the competitiveness of the UK aerospace, defence security and space industry.
